

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. MEN who engage in life insurance field work should do so with the idea in mind that it will be a life vocation. It is a business that is bound to endure, and the opportunities of which for the future are almost incomprehensible.

It is a business that makes its appeal to the best in a man, and the history and traditions of the Mutual Benefit Life Insurance Co. since its organization in 1845 are an incentive and an inspiration to any one. Over \$350,000,000 has been paid by the Mutual Benefit to policyholders and beneficiaries. The good that this has done is immeasurable.

For men with the service spirit there are big opportunities with the Mutual Benefit. The demand of the day is for MEN—four-square men with keen minds, strong bodies, brave souls and willingness to work hard. The opportunities of the business were never greater.

And here is a cardinal fact to be remembered in connection with Mutual Benefit service. You will never be called upon in your work for this company to do or say anything which your conscience cannot approve. Men and women are not with the Mutual Benefit for "bread and butter reasons" alone.

Send for our leaflet "To the Seekers for Success" and give us an opportunity to tell you of the Salient Points which distinguish this Company.

A REFERENCE BOOK FOR ALL WHO REQUIRE FIRE, CASUALTY OR MISCELLANEOUS INSURANCE

REPORTS OF FIRE INSURANCE COMPANIES

Every merchant, manufacturer or property owner carrying fire, casualty, fidelity, liability or other insurance (other than life), particularly those requiring large lines, who are frequently obliged to accept policies of unlicensed or light-weight fire insurance companies, or else have their property under-insured, should have at hand a copy of "REPORTS OF FIRE INSURANCE COMPANIES," by which to judge of the quality of the policies offered by agents and brokers. This book presents the latest statements of about 900 fire and marine insurance companies, in detail, with lists of their investments, etc., and also comparative statements of about 200 casualty and miscellaneous insurance companies for a series of years.

The information concerning each company is segregated, so that all desired data relating to a single company may be found by one reference, the companies being arranged in alphabetical order in their respective groups. The book also contains a complete Index.

This publication is a *compendium of the various State insurance department reports* upon fire insurance and is *more than the equivalent of a library of such reports*, for it contains the statements of many companies which are not given in any State reports, but which companies are soliciting business in the United States.

The work embraces the following-named classes of institutions: American Stock Fire and Marine Insurance Companies (licensed); Foreign Fire and Marine Insurance Companies (licensed in the United States); American Mutual Fire and Marine Insurance Companies; Underwriters Agencies; Lloyds and Reciprocal Underwriters' Associations; Unlicensed Foreign Fire Insurance Companies Casualty and Miscellaneous Insurance Companies.

Some of the information which is presented for the individual fire and marine companies is briefly described below:

ASSETS, DECEMBER 31, 1914.

Real estate.
Mortgage loans.
Bonds and stocks.
Collateral loans.
Cash.
Agents' balances.
Interest and rents.
Other assets.
Total admitted assets.

LIABILITIES, DECEMBER 31, 1914.

Losses unpaid.
Unearned premiums.
Perpetual deposits reclaimable.
Other liabilities.
Total liabilities.
Capital paid up.
Net surplus.

Total.

In elaboration of the above-specified items of assets, the companies' real estate holdings and mortgage loans are described, in sufficient detail to assist in the formation of an opinion as to their value; detailed lists of securities for collateral loans, and bonds and stocks owned, with values, etc., are given; tabulations showing the standing and business of the companies for a series of years are presented; and names of officers, directors, general and special agents are included, with other interesting and helpful information.

The San Francisco conflagration losses of the respective companies, with information concerning their consequent surplus contributions, remittances of foreign companies, etc., are also presented in this book.

The data contained in "REPORTS OF FIRE INSURANCE COMPANIES" are such as to render this publication of the utmost usefulness to all who buy or sell fire, marine, casualty or other kinds of insurance (except life). It enables the possessor to discover at once the character, importance and degree of reliability of any company whose agency or policy he is likely to be offered; and gives sufficient detail to enable him to form a just opinion upon such a company.

"REPORTS OF FIRE INSURANCE COMPANIES" comprises over 432 pages, and is substantially and handsomely bound in red cloth and gold. Price per copy, \$5.00, sent prepaid to any address in the United States, or any country in the Postal Union, on receipt of price.

The information embraced in this book is kept up to date by means of eleven MONTHLY SUPPLEMENTS, which will be furnished to subscribers to the book at \$2.00 per annum, or \$7.00 with the Annual Book. An excellent binder for the Supplements may be obtained for \$1.00.

READY RECKONER FOR EARNED AND UNEARNED PREMIUMS. A Series of Tables designed for the Speedy Calculation of the Sums earned and unearned on Policies of Insurance; by the late WILLIAM ELLSWORTH, Jr., formerly of the Continental Fire Insurance Company.

This new and important work is designed to furnish representatives of Fire Insurance Companies the means for instantaneously computing earned and unearned premiums. The method is the simplest yet devised, and can be comprehended by any one who is competent to understand the easiest rules of arithmetic. The tables prepared furnish a ready-made answer to all the problems relating to premiums that underwriters are required to solve. WM. ELLSWORTH, Jr., author of the Ready Reckoner, was a well known mathematician, who was long connected with the Continental and Niagara fire insurance companies, and later with the Caledonian Insurance Company. THE READY RECKONER is the result of his daily experience, and is designed to simplify the calculations required of every underwriter. 12mo., 80 pp. Printed on fine paper and substantially bound in half leather.

PUBLISHERS' ANNOUNCEMENT

For forty-two years THE INSURANCE YEAR BOOK has appeared annually, expanding year by year with the growth of the insurance business, and adding new features to its mass of information as the conditions demanded. The publishers therefore take pride in presenting the forty-third annual edition, and in acknowledging the widespread recognition that has been accorded this publication, both in this country and abroad.

The 1915 edition of the YEAR BOOK is issued in two volumes, as heretofore, one being devoted to LIFE, CASUALTY and MISCELLANEOUS INSURANCE, and the other to FIRE and MARINE INSURANCE. Each volume contains the standard statistics regarding companies and their transactions that are necessary to perfect their history from year to year. These statistics are brought forward to include their transactions to December 31, 1914. Some of the principal features of this volume are briefly summarized as follows:

FIRE AND MARINE VOLUME

The section entitled "Reports of Fire Insurance Companies" presents information more or less exhaustive concerning nearly 1,000 fire and marine insurance organizations (including unlicensed companies).

The importance of the fire and marine insurance transactions in the United States is indicated by the grand totals for 1914 here exhibited, taken from the Recapitulation Tables of the Fire and Marine Volume of the Insurance Year Book:

Number of companies.....	633	Total income.....	\$440,733,210
Capital paid up (U. S. Cos.)..	\$105,669,891	Losses paid	228,215,023
Assets	828,187,591	Dividends (Am. Cos., incl. mut.)	33,786,956
Net Surplus	292,454,377	Expenses	144,638,599
Net premiums	405,975,173	Total expenditures.....	406,640,578

Fire Departments and Water Supply is the title of a department in which is given extensive information as to the fire protection of 8,281 cities and towns in the United States and Canada. This department occupies 450 pages, closely printed.

The Directory of Insurance Agents (including also lists of Insurance Attorneys and Adjusters) occupies about 275 pages, 4 columns to the page, and includes about 62,000 names, being the most comprehensive list of its kind extant. Comprised therein are about 55,000 agents (35,000 of whom write fire insurance) and about 7,000 attorneys and adjusters.

The list of Companies that have Failed or Retired contains about 2,600 names.

Data are presented as to insurance companies in 45 Foreign Countries.

The officers of about 350 Underwriters' Organizations are given.

The Premium Receipts of individual companies are tabulated for 12 cities.

Notable Conflagrations in the World's History comprise 380 such events from B. C. 1897 to A. D. 1915.

The list of Large Fires in the United States and Canada embraces 322 fires occurring in the last two centuries, each causing \$1,000,000 or more of loss.

In addition to the foregoing, there is a considerable amount of other useful information presented regarding various features of the insurance business, each adding its quota to the value of this volume, which, aside from advertising matter, contains over 1,200 pages. The Life and Miscellaneous volume is similarly comprehensive in covering its peculiar field.

Our thanks are due to the heads of Insurance Departments of the various States and to officers of companies for their courtesy and promptness in furnishing us with desired information.

Agents and Brokers Representing the Travelers Possess Great Advantages

LIFE INSURANCE

Our Guaranteed Low Cost Life Insurance Policies guarantee every figure and eliminate all uncertainties. They contain a disability clause by which in event of permanent total disability before age sixty, the policy immediately matures for the full value by the payment of a guaranteed income to the disabled insured.

That the merits of this form of life insurance appeal to business men is evidenced by the fact in the percentage of increase during the last five years The Travelers stood second among all the leading life insurance companies in the country.

OUR ACCIDENT AND HEALTH POLICIES

are famous the world over for their broad coverage, prompt payment and fair spirit of adjustment.

OUR COMPENSATION AND LIABILITY POLICIES

afford the most complete coverage and afford a service of inspection and safety engineering for the prevention of accidents the most efficient in the world.

The agent and broker who can supply these several needs possesses the broadest and most remunerative field for his efforts. One aids the other.

Reports of Fire Insurance Companies

INTRODUCTION

Proprietors and credit men of business concerns are yearly realizing to a greater degree the dependence necessarily placed by them upon the fire insurance companies for the protection of their expanding trade interests and also more clearly understanding the importance of obtaining their insurance from safe and strong companies. However, they often find it very difficult to secure an adequate volume of good insurance to cover their enlarged risks. The conditions which had existed prior to the great San Francisco conflagration of April 18-21, 1906, not having been fully met by the legally authorized fire insurance companies, had led to the formation of numerous companies and Lloyds associations, and, later, to the organization of many inter-insurance associations, many of which had not gone through the formality of securing licenses from the State insurance officials of their respective States, and had also tempted a considerable number of foreign companies to write "surplus line" risks without making any deposit of cash or securities in this country or securing a license from any State Insurance Department. The conflagration, being followed by a greater scarcity of insurance, brought about the organization of numerous new companies, and business houses requiring considerable lines of insurance find themselves dependent, to some extent, upon such companies, many of which have ample assets to conduct business along reasonable lines, although several have already gone out of business.

A development of these conditions, in conjunction with the desire of most insurance agents and business men to have at hand some authority on the standing of the fire insurance companies, both licensed and unlicensed, with which they deal from time to time, has been a realization of the desirability of not only having all such information embraced within a single volume, instead of scattered through numerous different State reports and loose documents, but of having, equally available, sufficient details as to assets, liabilities, etc., to enable those interested in any particular company to judge as to its actual standing. To meet this requirement, this department of The Insurance Year Book has been prepared. We trust that it will be found serviceable in giving subscribers correct information as to the standing of concerns whose policies they may be offered, and in saving them from dealing with unreliable companies. In this connection we suggest that subscribers read carefully the remarks at the head of each of the respective groups of organizations.

AMERICAN STOCK FIRE AND MARINE INSURANCE COMPANIES

The following pages contain abstracts of the official statements covering the year 1914, of all regularly licensed joint stock fire and marine insurance companies now domiciled and operating in the United States, together with summaries of their condition and business for each of the last five years.

Note.—The Net Premiums given in the following tables, for practically all of the companies, represent the gross premiums written less amounts paid for reinsurance, rebate, abatement and return premiums in the respective years, except 1913-14, when deductions apply to business written in that year. Total income excludes deposits received on perpetual policies, premiums of previous year received, and other extraneous items. Expenses exclude deposits returned on perpetual policies and other items which cannot properly be classed as expenses.

AMERICAN NATIONAL FIRE INSURANCE CO., Columbus, Ohio.

President, John W. Zuber; Secretary, Lloyd M. Richards. Incorporated, 1914.

The company filed its incorporation papers with the Ohio officials, October, 1914, and proceeded at once to sell stock, which we are advised is progressing rapidly. The capital proposed is \$350,000, and an initial surplus of like amount, \$10 shares

selling at \$20. It is the company's intention to operate at first in O., Ind. and Ill. The company hopes to write business commencing June, 1915. Among the incorporators are: James W. Carroll, John W. Zuber, A. H. Harmon and Lloyd Richards.

AMERICAN REINSURANCE COMPANY, Hartford, Conn.

This company filed its incorporation papers with the Connecticut Legislature early in 1915 as the Fire & Casualty Reinsurance Company of Hartford, but a subsequent bill submitted changed the name to that of the American Reinsurance Co. The company asked for a charter allowing for a capital of \$500,000, with the privilege of increasing to \$5,000,000 when the directors so desire.

It is proposed to write fire and casualty reinsurance. The list of incorporators is as follows: Sylvester C. Dunham, Morgan G. Bulkeley, R. M. Bissell, Morgan B. Brainard, L. B. Brainard, William Bro Smith, L. F. Butler, C. E. Chase, W. B. Clark, J. R. Hills, F. T. Maxwell, Ed. Milligan, C. L. F. Robinson, C. L. Spencer and John L. Way.

KENTUCKY FIRE INSURANCE COMPANY, Covington, Ky.

It is understood that the Kentucky Fire of Covington, Ky., which was organized in 1914 as an assessment company, will file papers for incorporation as a stock company. It is to have a capital of \$100,000, of which \$55,000 is already subscribed. The officers say that the rest of the stock has been practically placed. Its surplus will be \$40,000. The last \$45,000 of the company's stock will be sold at \$20, the par value being \$10; this will furnish

the surplus. This company, according to its officers, has \$1,334,000 of insurance in force, and has 162 agents in Kentucky. Its surplus is now about \$18,000, which is expected to be enough to take care of the reinsurance reserve when the assessment company reinsures in the stock company. It is planning to enter Ohio and Indiana as soon as all the capital stock is subscribed.

In addition to the admitted assets, the company was shown to have on Jan. 18, 1915, resources as follows: Securities held by La Salle Street Trust & Savings Bank, \$374,602; cash in same bank, \$44,175; etf. of deposit, same bank, \$2,000; cash in Pullman Tr. & Sav. Bk., (due June 1, 1915), \$7,200; etf. dep. Ashland, 12th Bank, \$5,000; cash, Jos. Stein & Co. (due March 4, 1915), \$5,000; cash, Kowalski Bros. (due May 21, 1915), \$4,000; notes given by stockholders account surplus, \$362,714 (about one-half to be collected within 90 days).

MISCELLANEOUS: This company has an authorized capital of \$1,000,000 and it is proposed to have an equal amount of surplus. Because of inability to obtain possession of bonds owned and cash on deposit, due to the failure of the La Salle Street Trust & Savings Bank, it was decided to make the capital \$300,000. After examination by the Illinois Insurance Department, the company was on Jan. 28, 1915, licensed to transact business in that state. Secretary Henry J. Woessner is the managing underwriter. Early in 1915 surplus increased to \$65,000 by collection of notes.

OHIO COMMONWEALTH FIRE INSURANCE COMPANY, Cleveland, O.

President and Treasurer, Elmer E. Gandy; Vice-President, W. J. Geiger; Secretary, H. P. Knoble. Incorporated Sept. 2, 1911.

This company was organized under the laws of O. and has an authorized capital of \$100,000, which is already subscribed, and \$48,975 of which is paid in. The stock was sold at \$50 per share (par \$25), so that after providing for all organization expenses the company should begin business with at least \$50,000 surplus. The directors are E. E. Gandy, W. J. Geiger, H. P. Knoble, J. T. Burnham, E. A. Murphy, A. C. Henry, M. J. Blitt, J. C. Wolf,

S. W. Wenbau, Frank Yesberger, Ross P. Jordan, W. C. Smoot. The company will transact a fire business only in Ohio at first, gradually enlarging its territory and capital as business demands. Plans are now under way to merge this company with the Shawnee F. & M. of Lima, O., due to the difficulty which both are experiencing in selling their capital stock. The proposition has been approved by the directorate of both companies.

OHIO VALLEY FIRE AND MARINE INSURANCE COMPANY, Paducah, Ky.

MISCELLANEOUS: The Virginia Marine was organized in 1832 (March 14), with a cash capital of \$100,000, paid in cash subscriptions. Transacted marine business only. During session of legislature, 1839-1840, the capital was authorized to be increased to \$200,000, and in the spring of 1840 the addition was subscribed and paid in cash and the company commenced fire business also. Charter was amended January, 1852, changing name to Virginia Fire & Marine and was again amended January 4, 1858, changing par value of shares from \$100 per share to \$5 per share. March 28, 1860, January 3, 1866, assets were reduced to \$62,000 on account of the Civil War, and in order to again commence business each 5 shares of stock were reduced to 1 share and the capital was increased to \$175,000 by cash subscriptions. In June, 1872, capital was increased to \$200,000 by cash subscriptions. On March 5, 1874, capital was increased to \$250,000 by cash subscriptions. MISCELLANEOUS: The Phoenix was the first English fire company to open an American branch, an office having been established in Philadelphia in 1804. Six years later hostile legislation led to its withdrawal. While the Phoenix was interested in United States business through reinsurance treaties (by which it lost \$500,000 at Chicago in 1871 and \$250,000 at Boston in 1872) it did not re-enter for direct business until 1879. The dominant interests in the Phoenix also control the Imperial Assurance Co. of New York. In 1907 the company acquired the business of the Pelecan and British Empire Life Offices. The home office statement of the Phoenix as of December 31, 1913, shows that it then had \$79,078,983 of assets, including the paid up portion of its capital, \$2,050,847. Its subscribed capital is \$15,571,652. Conflagration losses: Baltimore, 1904, \$472,769; San Francisco, 1906, \$2,518,804. San Francisco losses were paid by remittances from home office. Values of special deposits: Ga., \$8,800; Va., \$19,530.

MISCELLANEOUS: The Royal Exchange began transacting marine insurance in 1696, and secured its charter (under which it now writes fire insurance) in 1720. At home, it transacts fire life, sea, burglary, accident and employers' liability insurance, but confines its writings in the United States to fire and marine insurance. It began business in the United States in 1891, on the Pacific Coast, and in 1898 commenced a general business, with headquarters in New York. As of January 1, 1913, its home office statement showed \$8,795,100 of assets, its paid-up capital being £689,220. Conflagration losses: Baltimore, 1904, \$402,558; San Francisco, 1906, \$2,968,637. Baltimore and San Francisco losses were paid by remittances from home office. Values of special deposits: Va., \$48,660; Ga., \$10,125; O., \$100,000; Mass., \$200,000.

MISCELLANEOUS: The laws of Maryland do not require a reinsurance reserve of mutual fire insurance companies. The Baltimore Mutual, however, reports 50 per cent of its annual premiums in force and pro rata for all term risks as an unearned premium liability, thereby showing that amount less in its surplus to policyholders. Its 1913 and 1914 reserves are computed according to New York law.
